Office Screen Range

These clear 5mm Polycarbonate screens are the ideal solution for the segregation of workstations to protect your employees and encourage social distancing in professional work environments.

Highly aesthetic with radius corners, non-intrusive, durable, non-porous and transparent screens come in three styles for the workplace - standard office desk screen, office desk divider extension and reception desk screen.

Ideal for offices, schools, receptions, hotels, retail, petrol stations, factories and many more.

Screens come with a choice of brackets depending on the desk type. Installation is simple as the brackets can be positioned anywhere and attach to your desk with a butterfly bolt, so no tools are required.

Three office desk screen options

BEAVERSWOOD®
EST. 1984
making the workplace work smarter

- Polycarb barriers to reduce personal contact and to protect employees
- Durable, non-porous, transparent and highly aesthetic with radius corners
- Three desk screen options available
- Comes with a choice of brackets to fit every desk size and configuration
- Easy to maintain and clean (screens can be lifted out of the bracket)
- Other sizes available

Office Screen Range
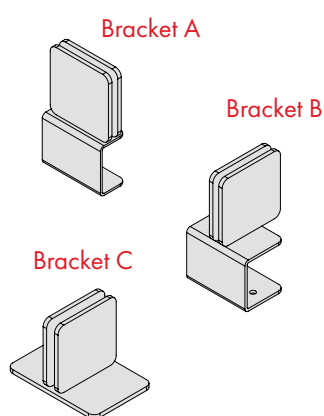

Office Desk Screen

High quality, durable and transparent office desk screens to be used in a range of workplaces to help reduce the spread of infection.

The screens are available in a range of sizes to cover the long end and short end of a desk.

Disposable Face Masks

Supplied in a pack of 50 masks

The connection point of the earloops is located on the front of the mask to ensure a tighter fit around the face and jaw

Ref	Pack
DFM01/50	50

- Disposable Face Masks to protect from the nose to the chin
- Prevents the spread of viruses
- Eco-friendly and biodegradable material
- Stretchy and soft for a comfortable fit
- Easily disposable after each use
- Supplied in a pack of 50 masks

These Disposable Face Masks have been designed to be worn by personnel to protect not just themselves but others. They act as a barrier from the bridge of the nose to the chin to prevent the spread of viruses.

Face masks are starting to become mandatory in many social situations and should be worn anytime you are in public or surrounded by people.

The polypropylene, biodegradable material is easy to wear and can be easily disposed of after each use. The stretchy, soft and eco-friendly material has been designed for a comfortable fit.

Social Distance Floor Markers

Protect YOURSELF and OTHERS!

- Floor signs designed to highlight and encourage social distancing and queue lines
- Tough and durable – made to withstand busy industrial and commercial environments
- Each sign is 235mm in diameter
- Highly visible with clear instruction
- Created to help industries comply with the Coronavirus / Covid-19 regulations

Help people to stay safe - and keep apart in public queues and workplaces - with these floor markers designed to help combat the spread of Coronavirus.

Premium quality floor markers with an anti-slip laminate surface tested to R9 standard. Each of these highly visible floor signs are printed onto the underside of a clear PVC film and then laminated on the back surface with an aggressive permanent adhesive. They are suitable for use on dry, flat, clean surfaces. Designed to encourage social distancing and to also create 'wait behind this line' instructions.

Social Distance Floor Markers

Highlight the *safe route* in your workplace
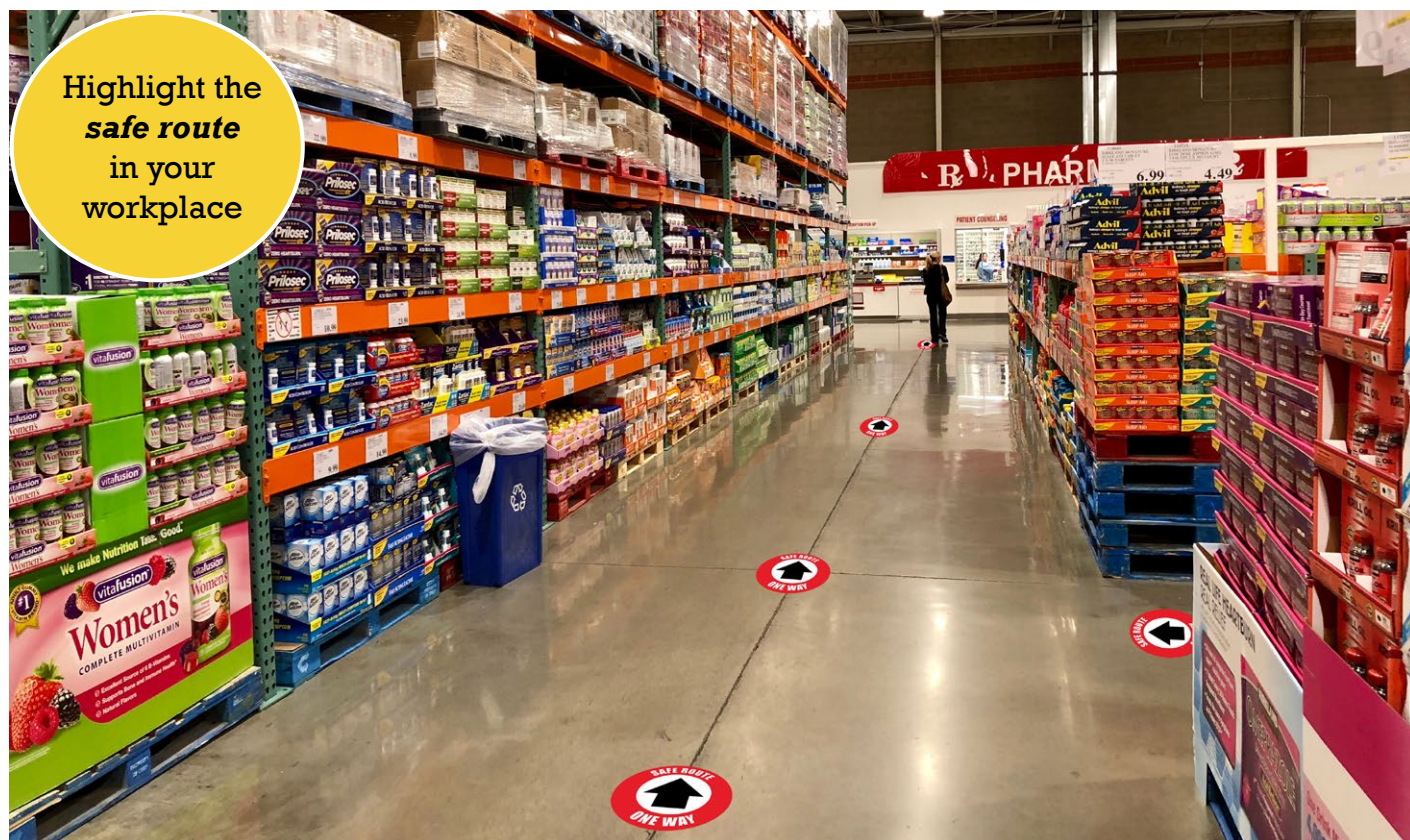

Floor markers and one-way systems down aisles are being introduced in stores and warehouses to help combat and slow the spread of Covid-19.

These visually communicative arrow floor markers can be used near entrances or exits, checkouts or down aisles. This system can help indicate the direction of traffic flow and point your customers in the right direction in a bid to limit the amount of people in an aisle at one time or even make shoppers aware of no-go areas.

Available in a text and symbol-only design.

Semi-Permanent Adhesive Social Distance Floor Markers

NEW lighter adhesive!

- Floor signs designed to highlight and encourage social distancing
- Temporary, semi-permanent markers
- Easy and fast application
- Easily removable and re-usable
- Each sign is 235mm in diameter
- Text and symbol-only designs available
- Highly visible with clear instruction
- Can be displayed on floors as well as glass

Help people to stay safe and maintain social distancing in public queues and workplaces - with these floor markers designed to help combat the spread of Coronavirus.

These markers have a lighter adhesive in comparison to our premium floor markers, and are for temporary, semi-permanent measures. Ideal for locations which require an easily removable solution, without problematic peeling. These markers are 235mm in diameter and are available in 13 standard designs - 6 text and 7 symbol-only.

Each of these highly visible floor signs are printed onto the underside of a clear PVC film and then laminated on the back surface with a light adhesive. They are suitable for use on dry, flat, clean surfaces including floors or glass windows.

Floor Signals

For **walkways, pallet storage,** and **equipment positioning**

- A simple but effective solution for marking areas on the floor
- Tough PVC with an aggressive adhesive
- Capable of withstanding everyday traffic in busy commercial and industrial environments
- Helps to improve efficiency and safety

Highlight pallet areas, walkways and traffic flow. Manufactured using a thin plastic membrane and laminated with an aggressive adhesive.

These floor signals bond strongly onto the floor surface and are resistant to the rigours of a busy warehouse and other areas with high footfall. The markers are suitable for application onto any clean, flat, sealed surface.

Urinal Distance Markers

UDM01   ## UDM02

- Urinal Distance Markers to help people maintain social distancing in restrooms
- Manufactured using 1mm white styrene
- Waterproof
- Quick and easy to fix
- Simple to move and reposition as required
- Hangs around most exposed pipework
- Dimensions - 385mm long x 160mm diameter
- Available in a text or symbol-only version

These Urinal Distance Markers have been created to help people maintain social distancing in restrooms. As a wide range of industry sectors start reopening after the Covid-19 pandemic, it is important that we keep up social distancing practices in any way we can.

Ideal for restrooms in pubs, restaurants, offices, hotels, hospitals, retail, schools, colleges, universities and many more.

Manufactured using waterproof 1mm white styrene, these markers are premium quality and highly durable. Designed to hang around the pipework of most urinals, allowing the markers to be moved and re-positioned quickly and conveniently.

Social Distance Stencil Kits

With each kit please state which colour paint you require - (/RE) Red, (/YE) Yellow or (/WH) White.

- Large 750mm wide x 375mm deep floor markers
- Ultra-low (0.45mm thick) helps prevent pallets catching the edge
- Super strong adhesive quality - suitable for use in busy workplace environments
- Slip-resistance tested to R9 standard
- Highlights the area to keep clear in front of fire doors to ensure safety

Highlight *waste recycling areas* in the warehouse

These large anti-slip floor markers can be used on any flat, sealed surface. Ideal for use in front of fire exit doors, to highlight fire extinguisher areas or to warn/highlight any important messaging. The slimline markers feature an aggressive, permanent adhesive suitable for busy industrial environments.

frames4floors®

Tough, permanent adhesive colour edged PVC frames that enable a printed message or code to be placed and protected onto the floor. The frames bond onto the floor surface and are therefore resistant to the rigours of a busy workplace.

The frames are available with two window sizes: A4 (up to 200 x 290mm) or DL (up to 89 x 199mm). Frames are available with six colour options, making them ideal for 5S and Lean environments.

- Flat, colour coded floor identification frames
- Available in 2 insert sizes: A4 and DL
- Choice of 6 stand out colours
- Permanent industrial strength adhesive to withstand warehouse traffic
- Ideal for identifying bulk stack locations or to highlight important information

Allows for *quick and easy* barcode scanning

Available in 5 standard colours or chevron
